

VIDEO SCRIPT: KNOMEE CONVERSION INTELLIGENCE

[Opening | VOICEOVER]

(Visual: Cold landing page → form → drop-off. Cursor leaves screen.)

Most wealth firms don't have a pipeline problem.
They have a conversion problem.

You're getting the meeting.
But you're losing the client.

Because you're starting with what you offer...
before understanding what wealth actually means to them.

And that's where momentum breaks.

[VOICEOVER]

(Visual: Prospect clicks → form → pauses → exits → opens another firm, same experience)

At first touch, every wealth firm feels the same.

A click leads to a form.
Questions. Data requests.

No signal.
No differentiation.
No way for a prospect to know if you're right for them.

So they hesitate.
They compare... but everything looks interchangeable.

And most just leave.

[TRANSITION → KNOMEE EXPERIENCE]

(Visual: Shift to warm, inviting Knomee interface)

Knomee changes the starting point.

[VOICEOVER]

(Visual: Gamified experience. Questions around values, goals, life priorities)

Instead of asking for information...

we create value immediately.

A guided, gamified experience that helps prospects reflect on what actually matters.

Their goals.

Their values.

Their vision for the future.

[VOICEOVER]

(Visual: Smooth, engaging interaction flow)

It doesn't feel like intake.

It feels personal.

Like someone is finally asking the right questions.

[VOICEOVER]

(Visual: Dashboard appears with Knomee Quotient, segmentation signals)

And in the process, Knomee reveals what most firms never see:

Behavioral intelligence.

Who's ready to move.

Who needs clarity.

What's driving their decisions.

[VOICEOVER]

(Visual: Knomee Quotient + readiness indicators)

We turn insight into clear signals advisors can act on.

A Knomee Quotient that shows readiness.

Conversation starters grounded in what actually matters to the client.

All powered by behavioral science and informed by leading research in how people think, decide, and take action.

So advisors don't have to guess what will move someone forward.

[CUT TO MARLA – FOUNDER POV]

(Visual: Marla speaking, clean, interview style)

“Wealth managers want to improve their clients’ lives.

When prospects start with Knomee,

Advisors understand what matters, where they are, and how to help them move forward.

That clarity changes everything.”

[BACK TO VOICEOVER]

(Visual: Advisor view → insights → meeting prep)

Before the first meeting even happens, advisors have:

Context.

Emotional insight.

A clear path into the conversation.

[VOICEOVER]

(Visual: Advisor in meeting, confident, personalized conversation)

So instead of defaulting to portfolios...

They show up prepared.
Relevant.
Different.

[CUT TO MARLA – FOUNDER POV]

“This is how you build trust faster.
People want to feel understood and confident in their decisions.”

[VOICEOVER]

(Visual: Lifecycle view → ongoing engagement, transitions, next-gen)

And it doesn’t stop at the first interaction.

Knomee structures and translates deep understanding over time
so firms can engage, adapt, and grow relationships
As clients evolve across life stages and generations.

[VOICEOVER – CLOSE]

(Visual: Calm, confident brand moment)

Better beginnings lead to better relationships.

Better conversations.
Better decisions.

And clients who actually move forward.

[FINAL CUT – MARLA]

“We’re not replacing the human side of advice.
We’re making it stronger.”
